Senior Engineer.MS,MBA

33 years old, marital status: single

current location: Moscow, Russia

Objective

Hardware and Software Engineer with an MBA and extensive experience in the full-cycle development and production of complex electronic systems. Expertise encompasses semiconductor technologies, radio and optoelectronics, telecommunications, high-performance computing architectures, server platforms, and high-speed interfaces and protocols.
Integrating deep technical proficiency with strategic business insight and a holistic "helicopter view," I seek to expand my expertise and contribute to ambitious international projects in cutting-edge computational and semiconductor-driven systems.

Experience

BULAT (till now) GAGARIN (till 2025)

Senior Embeddeed Engineer

2024 - now

Currently developing and debugging embedded software and firmware for 19" and OCP server platforms. Actively contribute to system architecture development and the selection of competitive technical solutions through project analysis and competitive research. Responsible for server platform bring-up, BSP development (Linux kernel, userspace, U-Boot + REST) for BMC ASPEED 2600, FPGA/CPLD design (Anlogic, Gowin, Lattice), creation of testing methodologies, product evaluation and technical documentation, as well as Linux server, network and test environment administration

- COMPUTING TECHNOLOGIES
- FPGA, CPLD, BSP
- NETWORK TECHNOLOGIES
- PLATFORMS EVALUATION

Instrumental systems corp

2014 - 2024

from Trainee to SeniorEngineer

Progressed from QA and testing roles to hands-on development in analog and digital circuit design, system-level software and firmware programming, and FPGA engineering. Actively participated in the full development and production cycle of advanced embedded radio-electronic systems and R&D projects.
Responsibilities covered every major stage — from schematic design and high-speed multichannel ADCs/DACs based systems through DSP-based signal processing on FPGAs and SoCs (Xilinx), firmware/software development, PCB , analog/RF/digital debugging, device characterization, and technical support, to full project documentation and specifications. This end-to-end involvement built comprehensive expertise across all aspects of complex electronic device development and manufacturing.

- FIRMWARE
- SUPPORT
- HDL/FPGA/SOC
- SOFTWARE
- DOCUMENTATION
- EMBEDDED
- RF EQUIPMENT
- PROJECT MANAGEMENT
- ADC & DAC
- VHDL/VERILOG
- PROJECT DRAFTS
- LINUX

Institute of Radio-engineering and Electronics

Research fellow

Nov 2017 - Mar 2019

Conducted scientific research on ultralow-noise superconducting THz receivers (unique sample) and SSPDs. Performed scientific experiments, data processing, technical support of the receiver, and preparation of research reports.

- RESEARCH
- SCIENTIFIC APPROACH
- DATA PROCESSING
- REPORTING
- EXPERIMENT CONDUCTION
- EXPERIMENTAL PHYSICS

Personality

A well-balanced and open-minded person, and a curious learner.
My main passions are music (guitar playing), hiking, mountaineering, and global financial markets.

Education

MASTER OF BUSINESS ADMINISTRATION
oct 2023 - aug 2025
(2 years)

○ Moscow International Higher Business School MIRBIS

Strategical Management

- MANAGEMENT
- MARKET ANALYSIS AND RESEARCH
- STRATEGIC DEVELOPMENT

MASTER OF SCIENCE
sep 2017 - jul 2019
(2 years)

○ Moscow Institute of Physics and Technology

Department of Solid State Electronics and Information Systems
Major • Applied Mathematic and Physic

- SCIENTIFIC RESEARCH
- STATISTICAL PROCESSING
- LOW TEMPERATURE PHYSICS & ELECTRONICS

SPECIALIST
sep 2009 - jul 2014
(5 years)

○ Moscow Technical University of Communications and Informatics

Department of Radio Receiving and Transmitting Devices
Major • Radio-electronics

- RF EQUIPMENT
- CPU, FPGA, DSP
- SCHEMATIC
- ANALOG, DIGITAL, HF, RF COMPONENTS

Supplementary education & cerificates

○ LINUX KERNEL PROGRAMMING (6 months, prof. development training) OTUS.RU

- KERNEL MODULES
- LINUX
- C

○ DATA CENTRE FUNDAMENTALS

- HIGHLOAD INFRASTRUCTURE

○ C++ PROFESSIONAL PROGRAMMING OTUS.RU

- C++(11-23)
- MOCKING, TESTING
- STL, BOOST
- CROSS-PLATFORM

○ PROGRAM ARCHITECTURE AND DESIGN PATTERNS (5 months, certificate) OTUS.RU

- SOFTWARE ARCHITECTURE
- MICROSERVICES
- DESIGN PATTERNS
- OBJECT-ORIENTED PROGRAMMING

○ RUST DEVELOPER (6 months, prof. development training) OTUS.RU

- NETWORK
- CONCURRENT AND PARALLEL PROGRAMMING
- ASYNCHRONOUS PROGRAMMING
- FUNCTIONAL PROGRAMMING

○ MODERN C PROGRAMMING (6 months, prof. development training) OTUS.RU

- x86_64
- LOW-LEVEL PROGRAMMING
- POSIX
- ARM
- MAKE, CMAKE
- LINUX

○ ADVANCED ASPECTS OF LINUX-BASED SYSTEM ADMINISTRATION (7 months, p.d.t) OTUS.RU

- *NUX ADMINISTRATION
- NETWORK
- VIRTUALIZATION
- KERNEL/MODULE PROGRAMMING

○ PYTHON PROGRAMMING (6 months, prof. development training) OTUS.RU

- WEB DEVELOPMENT
- SQ/NoSQL
- CI/CD
- GIT
- JANGO & FLASK
- JS
- REST
- SVN

○ CERTIFICATE IN ADVANCED ENGLISH (1 year) CAMBRIGE ENGLISH QUALIFICATIONS

- CEFR LEVEL C1 (ADVANCED)
- COMMUNICATION

○ MATLAB & SIMULINK FOR PROCESSES AND SYSTEM MODELLING (1 month) EXPONENTA.RU

- MATLAB & SIMULINK
- MODELLING

○ GERMAN LANGUAGE STUDIES IN CULTURAL AND PROFESSIONAL COMMUNICATIONS (2 years) MOSCOW STATE UNIVERSITY

- GERMAN B2
- COMMUNICATION

○ MEASUREMENTS AND TESTS METHODS CREATION (3 months, prof. development training) SNTA

- MEASUREMENT METHODOLOGY
